ABOUT THIS REALM

The Free Bazaar — Free Cybersecurity APIs, Feeds & Data

Free (or free-tier) data sources every security program should be using — no budget required.

Free-tier services and keyless data — the APIs and feeds you can call today without a credit card. Free tiers shrink; we re-verify this realm's limits on every monthly pass and annotate the moment a vendor tightens them.

- **Active in the last 30 days:** 4 of 10 tracked GitHub repos (40%)
- **Quiet classics (no push in 2+ years, still the standard):** Security Datasets, EVTX-ATTACK-SAMPLES, Boss of the SOC (BOTS)
- **Youngest entries:** SecLists (2012), Awesome Pentest (2014), Awesome Web Hacking (2015)

THE COLLECTION

All 30 tools — with live facts

Flagship picks carry the **FLAGSHIP** badge — the tools this realm is built around. Everything is free, free-tier or open source: no paywalls, no SaaS wrappers.
